The New Great 70's Helmets Wall

“ti va una caramella?”

Questa è la taverna dei desideri, i suoi muri non sono pareti, ma porte dimensionali sui sogni di amici e clienti di tutto il mondo. Questa è l'espansione del nostro laboratorio, che si allarga continuamente perché non riesce più a contenere tutto quello che porta alla luce. Questo è molto più di un semplice luogo di esposizione, qui traiamo ispirazione dai nostri lavori e da mille suggestioni portate con noi dall'ultimo viaggio, dall'ultima esperienza, dall'ultimo show. Qui si incrociano foto e oggetti, immagini mentali e tendenze, ricordi dei mercatini notturni di Bangkok e degli show più cool del mondo, oggetti trovati in negozi punk o vintage tra Londra e la provincia italiana,

vecchi bidoni dell'olio, cartelloni pubblicitari, tatuaggi, cose che si imprinono nella pelle oltre che nella memoria, cose che ci si porta nella testa e che qui si mischiano tra loro e crescono, per finire sul tuo casco. Questo è il viavai che ci fa stare bene, questo è il nostro luogo di ristoro, la nostra tavola calda sempre aperta, pronta a sfornare tutto quello che ci ispira questo incrocio unico, per mettercelo in testa.

Questa è la nostra seconda casa.

**Ormai ci conosci.
Ti va una caramella?**

This is the tavern of desires, its walls are not barriers, but dimensional doors to dreams of friends and customers all over the world. This is the expansion of our workshop, which is constantly developing as it can no longer contain everything it brings to light. This is much more than just a place of display, here we draw inspiration from our work and a thousand suggestions brought with us from the last journey, the last experience, the last exhibition. Here we intersect photos and objects, concepts and trends, memories of Bangkok's night markets and the coolest exhibitions in the world, objects found in punk or vintage stores between London and the Italian province, old oil cans, billboards, tattoos,

things that are imprinted on the skin as well as on the memory, things you carry in your mind and here are mixed together and grow, to end up on your helmet. This is the coming and going that makes us feel good, this is our place of refreshment, our 24 hours diner, ready to produce everything that inspires us in this unique intersection, to put it on your head.

This is our second home.

**By now you know us.
Do you want a candy?**

La storia continua...

La nostra passione cresce insieme a voi, che ci seguite sempre più numerosi da ogni parte del mondo, il nostro amore per i caschi Vintage e Custom aumenta giorno dopo giorno. Il fatto è che non si è mai trattato di rievocare un'epoca, o di avviare una nuova ma di far conoscere il nostro gusto. E ora ci siamo dentro.

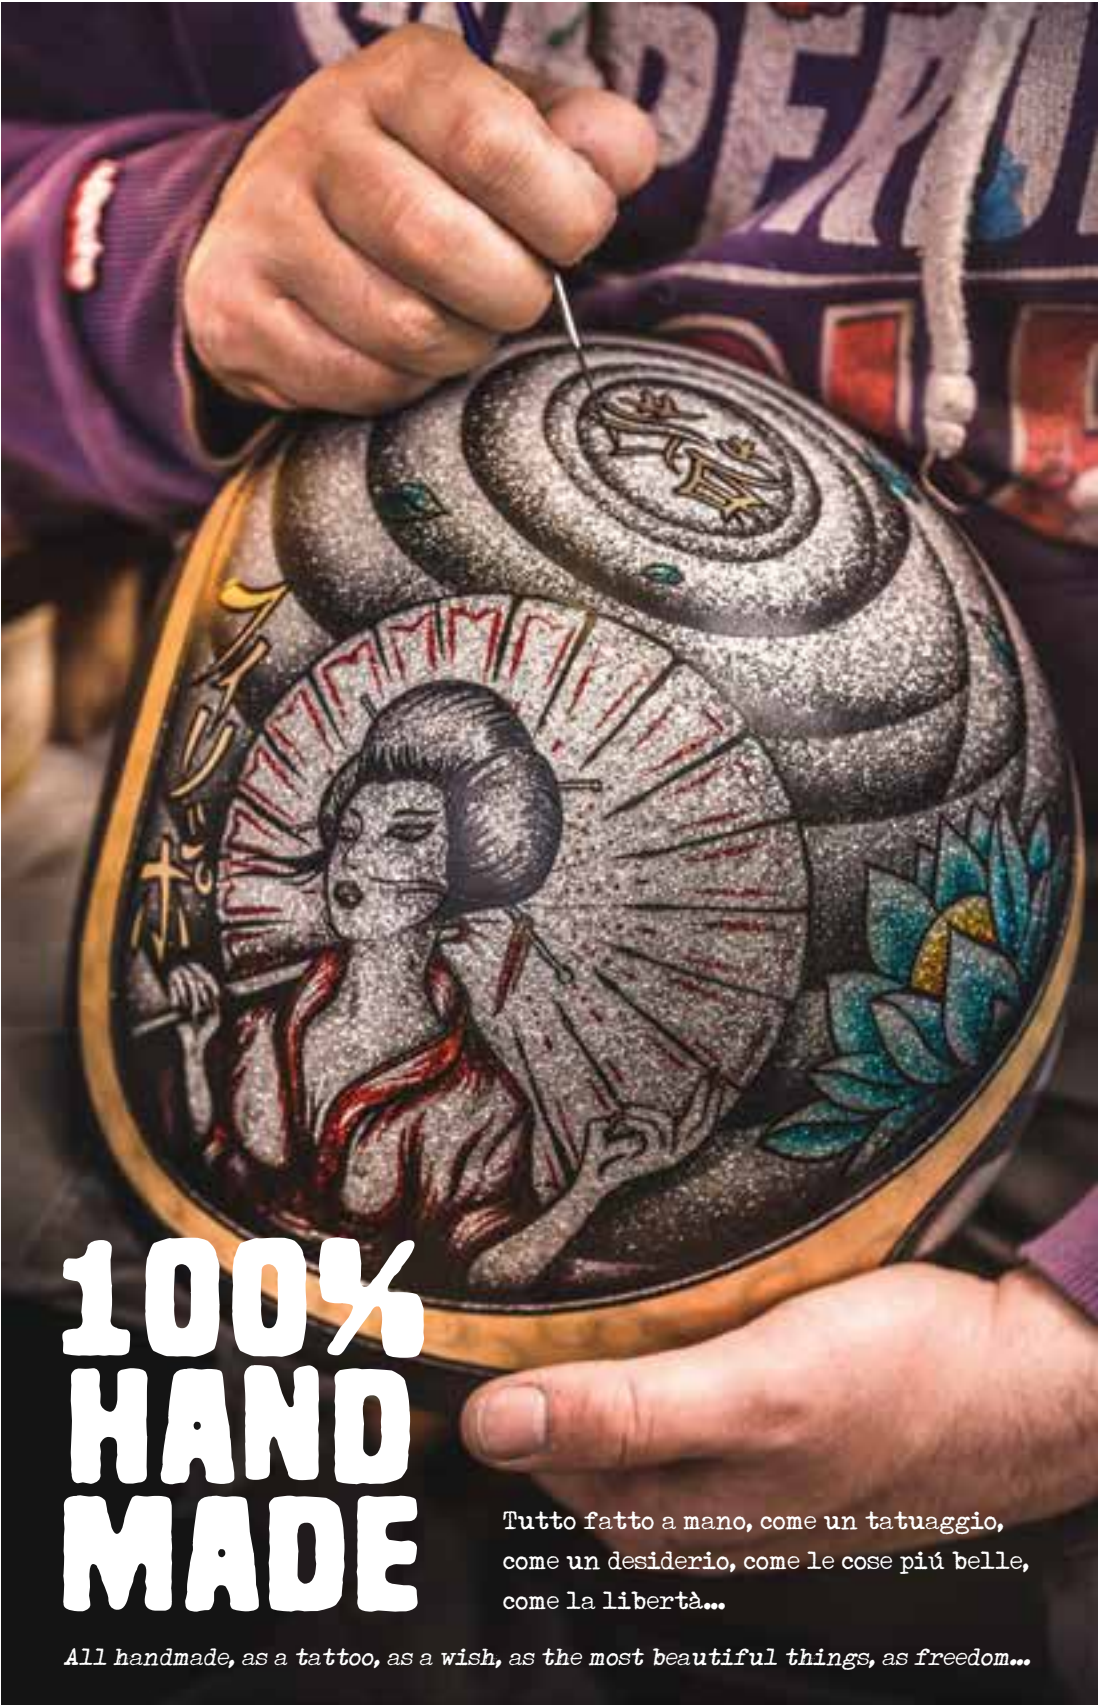

Gli show dedicati al custom aumentano e i marchi si specializzano. Noi continuiamo sulla nostra strada, intrapresa quando eravamo in pochi matti appassionati a fare da apripista e che ora ci porta sempre più lontano, mentre avviamo nuove collaborazioni con marchi storici e con designer emergenti.

And the story continues...

Our passion grows with you, who follow us more and more from all over the world, our love for Vintage and Custom helmets increases day by day. The fact is that it was never a question of recalling an era, or starting a new one but of making known our taste. And now we are in it.

The exhibitions dedicated to the custom scene increase and the brands specialize. We continue on our path, undertaken when we were just a few passionate crazies to lead the way that now takes us further and further, as we start new collaborations with historical brands and with emerging designers.

**100%
HAND
MADE**

Tutto fatto a mano, come un tatuaggio,
come un desiderio, come le cose piú belle,
come la libertà...

All handmade, as a tattoo, as a wish, as the most beautiful things, as freedom...

Measure around head one inch above eyebrows and across largest portion of back of head. The number of centimeters equals the helmet size.

OMOLOGAZIONI CERTIFICATIONS

The diagram shows two views of a motorcycle helmet. The left view is a front-facing perspective, and the right view is a side profile. Dimension lines with labels A, B, and C indicate the measurement points for a proper fit.

- A**: Indicated by a horizontal line across the top of the helmet, representing the width.
- B**: Indicated by a vertical line along the side of the helmet, representing the height.
- C**: Indicated by a horizontal line along the back of the helmet, representing the depth.

A = larghezza casco
B = altezza casco
C = profondità casco
